Education

Modern College of Arts, Science and Commerce

Bachelor of Science

Coursework: C, C++, JavaScript, Web Designing

2024 - 2027 (Expected)

Pune, Maharashtra

Projects

Chat App | React.js, Spring Boot, MySQL, WebSocket | [Github](#)

February 2026 - Present

- Developed a real-time chat application enabling instant message exchange between users using **WebSocket-based communication**.
- Built a responsive frontend with **React.js** and integrated it with **Spring Boot WebSocket APIs** to support low-latency messaging.
- Implemented backend services for **message persistence, user management, and chat session handling** using **Spring Boot and MySQL**.

URL Shortener | Next JS, MongoDB | [Github](#)

September 2025 - Present

- Built a high-performance interface that allows users to reduce long URL lengths by up to **80%**.
- Allows users to choose their preferred shortened URL when available; otherwise generates a unique alternative automatically.
- Hosted on **Vercel**, ensuring fast deployment, reliable performance, and seamless accessibility across devices

AlgoFlame | Next.js | [Live](#)

April 2025 - Present

- Built a technical blog using **Next.js**, achieving fast performance, a modern **UI**, and excellent SEO.
- Wrote technical articles on **C++ and DSA**, helping readers understand concepts clearly through practical examples.

Achievements

- Solved more than **250+** DSA problems across various platforms.
- Wrote **50+** articles on AlgoFlame, most focused on Data Structures and Algorithms.
- Achieved **28,000+** impressions across published articles on AlgoFlame platform.

Profile Links

- Leetcode (**170+** problems solved) - [Link](#)
- GeeksforGeeks (**120+** problems solved) - [Link](#)

Technical Skills

Languages: Java, C++, HTML/CSS, JavaScript, SQL

Technologies / Frameworks: SpringBoot, Spring, React.js, Next.js

Databases: MongoDB, MySQL
